EXPERIENCE

CODISTE PRIVATE LIMITED | SOFTWARE ENGINEER

Mar 2024 – Present | Ahmedabad, IN

Project - Zo: Chat with AI and Friends [Live Site](#)

- Developed core frontend modules, AI agent creation flow, group chat creation, and integrated dynamic authentication.
- Implemented features like Echo Chamber, voice recording, screenshot capture, meta previews, social sharing, Twitter authentication, dynamic image generation, live streaming functionality, and many more.
- Revamped UI with Material UI (MUI) and made it fully responsive.
- Improved frontend performance by resolving critical issues.

Contributed to a scalable web app actively used by 20K+ users.

Project - Hyundai Mexico

- Developed a ReactJS web application with Firebase authentication and Three.js integration for Hyundai Mexico's 10th anniversary.
- Integrated AI-driven car creation, 3D patterns, voting, sharing features, dashboard, RBAC, SEO optimization, and many more.

Other Projects at Codiste

- Developed 3 interactive Telegram mini-games (Kinetik, Puffy, Catbot).

YUDIZ SOLUTIONS LIMITED | FRONTEND ENGINEER

Feb 2023 – Feb 2024 | Ahmedabad, IN

Project - Craftroots (E-Commerce Platform) [Live Site](#)

- Developed authentication, product, cart, and user profile modules with GraphQL API integration.
- Implemented new features, UI enhancements, client-requested changes, and functional issue resolutions.

Project - Tokenomics DAO (Blockchain Platform) [Live Site](#)

- Built complex forms with Formik, developed REST APIs with Prisma, and handled API integrations.
- Delivered new features, UI updates, client-side improvements, and resolved functional bugs.

AZILEN TECHNOLOGIES PVT LTD. | ASSOCIATE SOFTWARE ENGINEER

Sep 2021 – Jan 2023 | Ahmedabad, IN

Project - EncorEstate Plans (Estate Planning Platform) [Live Site](#)

- Designed and developed UI components using HTML, React.js, Less, and Tailwind CSS.
- Built reusable components (forms, modals, tables, buttons, switches, uploads, tooltips, drawers, pagination, tabs, steps, layouts, skeletons) with Ant Design.
- Handled logic building, API integration, and frontend testing for the project.

YLOCATION.COM | DATA RESEARCHER

June 2019 – April 2021 | Ahmedabad, IN

- Deep Research, Data Analysis, Data Entry, USA Govt. Website & Web Research

KEY STRENGTHS

- Good Communication Skills & Time Management
- Willingness to learn new concept and ideas.
- Excellent problem-solving skills and hard working.
