## PROFESSIONAL SUMMARY

Software Engineer with 4.6+ years of experience building scalable SaaS, AI-powered, and real-time web applications. Frontend-focused expert in React.js, Next.js, and TypeScript with strong backend proficiency in Node.js and NestJS. Proven track record of reducing page load times by 40–60%, architecting production-grade systems, and integrating AI/LLM APIs (OpenAI, ElevenLabs, Twilio). Experienced in full-stack feature delivery, API design, database modeling, CI/CD pipelines, and cloud infrastructure on AWS.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, TypeScript, TanStack Query, GraphQL, SSR/ISR, Tailwind CSS, MUI, SCSS, Micro-frontends, Module Federation

**Backend & Database:** Node.js, NestJS, Express.js, REST APIs, WebSockets, Prisma ORM, PostgreSQL, MongoDB, MySQL, Redis

**DevOps & Cloud:** AWS (EC2, Amplify), Docker, GitHub Actions, CI/CD

**Integrations:** OpenAI, Twilio, ElevenLabs, Stripe, Razorpay, GHSL

**AI Dev Tools:** GitHub Copilot, Claude Code, Cursor AI, ChatGPT, Gemini, Codex, Prompt Engineering

**Testing & Process:** Jest, React Testing Library, Agile/Scrum

## WORK EXPERIENCE

**Codiste Private Limited** | *Software Engineer – Frontend-Heavy Full-Stack*

Mar 2024 – Present

Ahmedabad, IN

### Dialora.ai — AI Voice Call Automation SaaS

- Architected 3 production apps (marketing site, SaaS dashboard, admin panel) with scalable frontend architecture, enabling onboarding of paying customers within the first release cycle.
- Reduced page load from ~5s to ~2s (60% improvement) via TanStack Query, code-splitting, and bundle optimization, directly improving conversion rates.
- Enhanced NestJS backend (auth, RBAC, analytics, onboarding, campaigns, billing, call history, templates) achieving ~40% API performance gain; integrated Twilio, GHSL, ElevenLabs, and Stripe.
- Integrated OpenAI and Gemini LLM APIs for AI-driven voice automation, including dynamic conversation flows and real-time transcription.
- Deployed CI/CD pipelines on AWS EC2 and Amplify for zero-downtime releases and reliable production deployments.

### Zo.me — AI Chat Platform

- Improved performance by ~40% via React profiling, eliminating unnecessary re-renders, lazy loading, and CSS optimization on a high-concurrency real-time product.
- Shipped AI chat, AI agent creation, voice recording, group chat, and management features forming the core user-facing value of the platform.

### Hyundai Mexico 10th Anniversary — Interactive 3D Web Experience

- Launched a globally-deployed React + Three.js web experience with real-time AI-driven 3D car customization and social sharing, achieving smooth 60fps cross-device performance for Hyundai's anniversary campaign.

**Yudiz Solutions Limited** | *Frontend Engineer*

Feb 2023 – Feb 2024

Ahmedabad, IN

### Craftroots — E-Commerce Marketplace

- Cut initial page load by ~35% via SSR and Apollo GraphQL optimization, improving SEO performance and organic discoverability.
- Built end-to-end e-commerce features including authentication, product listings, cart, wishlist, checkout, and user profile management with Razorpay payment integration and robust error handling.

### Forgd — Blockchain / Tokenomics Platform

- Enabled non-technical users to configure complex token vesting and tokenomics workflows through multi-step Formik flows, reducing on-chain submission errors by ~35%.
- Revamped real-time blockchain analytics dashboards for liquidity, governance, token unlocks, and wallet metrics, boosting user engagement.

**Azilen Technologies Pvt. Ltd.** | *Associate Software Engineer*

Sep 2021 – Jan 2023

Ahmedabad, IN

### EncorEstate Plans — Digital Estate Planning Platform

- Led full-cycle frontend delivery across 5+ modules (authentication, estate planning, ECharts dashboards, analytics, and plan management) in React.js, ensuring a seamless user experience across all critical workflows.
- Accelerated team velocity by ~30% by building a reusable UI library with theming, notification systems, and Zendesk integration, reducing duplicate development effort across modules.

## EDUCATION

**B.Tech in Computer Science** | CGPA: 8.1 | Bikaner Technical University

2018 – 2022

**Diploma in Computer Science** | 73% | BTER Rajasthan

2014 – 2017

## CERTIFICATIONS, AWARDS & INTERESTS

**Certifications:** React: The Complete Guide | JavaScript Algorithms & Data Structures (freeCodeCamp) | Namaste React & Node

**Awards:** Synergic Force Award — Top Performer Recognition | Smart India Hackathon Participant

**Interests:** System Design | Generative AI | AI Product Development | UX Engineering
