SUMMARY

Software Engineer with **4.4+ years of experience** building scalable AI, SaaS, and e-commerce platforms. At **Dialora.ai**, spearheaded the end-to-end frontend architecture and streamlined deployments via **CI/CD**, while scaling backend services with **NestJS** and **Prisma**. Expert in **React.js**, **Next.js**, and **TypeScript** with a focus on **Architecture Patterns (Micro-frontends, Module Federation)**, **Server-Side Rendering (SSR)**, Accessibility (**a11y**), and Security (**OWASP**), consistently delivering high-performance features in agile teams.

WORK EXPERIENCE

Codiste Private Limited

Software Engineer

Mar 2024 – Present

Ahmedabad, IN

Dialora.ai — AI Voice Call Automation SaaS

[dialora.ai](#)

- **Architected the end-to-end frontend ecosystem** — built the marketing site, SaaS app, and admin dashboard from scratch using **React**, **Next.js**, and **TypeScript**; implemented **i18n** and enforced **WCAG Accessibility (a11y)** standards.
- Engineered AI voice agent configuration flows and embeddable widgets with a focus on **OWASP security principles**, ensuring robust protection against web vulnerabilities.
- Integrated third-party voice & CRM services (**Twilio**, **ElevenLabs**, **Pipedrive**) with secure authentication; managed **CI/CD via AWS Amplify** for automated, environment-aware deployments.
- Contributed to backend (NestJS, Prisma): engineered **RBAC**, subscription billing, and analytics dashboards while implementing API performance optimisations.

Zo.me — AI Chat & Live Streaming Social Platform

- Developed core frontend modules — AI agent creation flow, group chat, live streaming, voice recording, social sharing, and Twitter OAuth.
- Revamped the entire UI using **Material UI** for full responsiveness; resolved critical frontend performance bottlenecks significantly reducing load times.

Other Projects at Codiste

- **Hyundai Mexico 10th Anniversary App** — React.js + Three.js with AI-driven 3D car creation, Firebase auth, voting/sharing features, and SEO optimisation.
- **Telegram Mini-Games** (Kinetik, Puffy, Catbot) — 3 interactive games with real-time game logic, GSAP animations, and Telegram Bot API integration.

Yudiz Solutions Limited

Frontend Engineer

Feb 2023 – Feb 2024

Craftroots — E-Commerce Marketplace Platform

[craftroots.com](#)

- Built core e-commerce modules including **authentication**, **product listing**, and **checkout**; integrated GraphQL APIs using Apollo Client.
- Implemented **Server-Side Rendering (SSR)** and optimized data fetching strategies to achieve faster initial page loads and improved SEO rankings.

- Integrated **Razorpay payment gateway** for secure checkout and implemented advanced search filters and pagination.
- Improved frontend performance using **lazy loading, code splitting, and memoisation** for enhanced user retention.

Tokenomics DAO (now Forgd) — *Blockchain Platform*

[🔗 forgd.com](https://forgd.com)

- Developed multi-step **Formik-based forms** for token configuration and vesting schedules with strong client-side validation.
- Integrated APIs to display **on-chain data** such as wallet balances and governance votes in real time.

Azilen Technologies Pvt. Ltd.

Sep 2021 – Jan 2023

Associate Software Engineer
